L Bar Sealer

L Bar Sealer also known as L Type Sealer is a seal and cut machine which is ideal auxiliary equipment to work with shrink packaging machine and can be used separately as well, mainly used for cutting the shrink film in required sizes. The sealing & cutting control is using of instantaneous heating. Speedy sealing & cutting, electricity saving. Available to change the sealing time & cutting and temperature required upon the thickness of plastic film. The machine suitable to seal and cut PVC and POF Film.

L Bar Sealer is widely used in industries such as foodstuff, beverage, pharmacy, cosmetics and pesticide for containers with labels like glass bottle, plastic bottle, paper cup etc.

L Bar Sealer may combined with a shrink tunnel or heat gun to an L sealer to produce tightly shrink wrapped packages for shrink wrapping.

KST6066LF Series Manual L Bar Sealer

KST6066LF Series Manual L bar sealers create bags around products with PVC or POF film. Manual L bar sealers are operate by working manual one by one by pressing the seal bar. Manual L bar standard sizes range from 600mm by 660mm. Custom size options are also available. Economical and great for creating single or multi-pack packages for sale.

KST6066LF Series Manual L bar sealers design with magnet clamping, operate without air compressor. Machine design with spring for arm return and adjustable sealing time for varies size applications. Working table height is Fixed.

***Customized specifications are available.*

TECHNICAL DATA

◀ Model	KST6066LF
Voltage	1 Phase 240V
Total Power (Impulse)	1500W
Max. Sealing Dimension	660mmL x 600mmW
Working Table	Fixed
Heat Time Setting	0 - 2 Sec
Machine Structure	Laminated Wood Table and Metal Stand with Powder Coated
Machine Weight	95 kgs
Machine Dimension	1200mmL x 750mmW x 900mmH
