Carton Sealer

Carton Sealer is a packaging machine that applies adhesive tape to the bottom and / or top of a cardboard box so securely sealing the contents within. Carton Sealer is mainly used to seal cartons, which can operate alone or equipped into production line. Carton Sealer suitable for production where the size of cartons does not change frequently, especially fits for production required continuous sealing of cartons in the same size.

Carton Sealer is common used in the fields of domestic electrical appliance, foodstuffs, general merchandise, medicine and chemical industries. Carton packaging machine save time, save money and improve efficiency.

CSC6050S Semi-automatic Carton Sealer - Top & Bottom Drive

CSC6050S is a economic version Carton Sealer for lighth user. CSC6050S Carton Sealer design with top and bottom drive for packing product weight below 20kgs. CSC6050S Carton Sealer able to adjust manually by crank handle for difference carton width size anytime.

Optional: a. 76mm (3 inch) taping head

TECHNICAL DATA

Model	CSC6050S
Function	Top & Bottom Drive (2 Motor)
Power	1 Phase 240V / 200W
Width of Adhesive Tape for Sealing	48mm (2 inch)
Carton Dimension	150 - ∞mmL x 200 - 500mmW x 150 - 600mmH
Taping End	50 ± 5mm
Maximum Loading Weight	< 20kg
Sealing Speed	20 mtr/min
Working Table Height	635-780mmH
Machine Housing	Iron
Machine Dimension (L x W x H)	1520mmL × 790mmW × (960 - 1650)mmH
Machine Weight	150 kg
