Foot Impulse Sealing Machines

Foot Impulse Sealing machines (also known as Foot Sealers) are recommended for light to medium duty operations. They can seal various kinds of materials, such as BOPP, PE, laminations, and cellophane. This type of unit is activated by pushing on a pedal, and the machine will operate for the pre-set length of time.

Foot Impulse Sealing machines are easy to use (no warm-up time), economical (electricity is only used when the jaw is lowered during the sealing process), and safe (no component of these devices is always hot) which is commonly used for sealing operations in packaging candies, food, stationery, drugs, tools, replacement parts and a variety of other products.

KS-A Foot Impulse Sealing Machines

KS-A Series Foot Impulse Sealing Machines is special design with adjustable working table for product centreline seal. KS-A Foot Impulse Sealing Machines is standing console design with single heat sealing jaw designed for sealing of thermoplastic films. KS-A Foot Impulse Sealing Machines equipped with sealing width 3.2mm. KS-A Foot Impulse Sealers are easy to operate, no operator training required.

Optional: a. Change to Round Element for Cutter function (for seal and trim excess material- e.g. tubing film, in order to make customized bags)

TECHNICAL DATA

MODEL	KS18A
Voltage	1 Phase 240V
Impulse Power	600W
Sealing Length	450mmL
Sealing Width	3.2mm
No of Sealing Line	1 OR 2
Sealing Jaw	Bottom Only
Heat Time	0 - 2 sec.
Cooling Time	0 - 4 sec.
Machine Structure	Wooden Table Top with metal frame
Working Table Height	(Adjustable)
Machine Dimension	550mmL x 510mmW x 900mmH
Machine Weight	17Kg

*** Customized specification available upon request.*
