## Foot Impulse Sealing Machines

Foot Impulse Sealing machines (also known as Foot Sealers) are recommended for light to medium duty operations. They can seal various kinds of materials, such as BOPP, PE, laminations, and cellophane. This type of unit is activated by pushing on a pedal, and the machine will operate for the pre-set length of time.

Foot Impulse Sealing machines are easy to use (no warm-up time), economical (electricity is only used when the jaw is lowered during the sealing process), and safe (no component of these devices is always hot) which is commonly used for sealing operations in packaging candies, food, stationery, drugs, tools, replacement parts and a variety of other products.

## RBS Rice Bag Sealing Machines

RBS Rice Bag Sealing Machines is vertical standing console design with single heat sealing jaw designed for sealing of thermoplastic films. RBS Rice Bag Sealers equipped with sealing width 3.2mm. RBS Sealer design with adjustable working table increase the flexibility of sealing for different product height. Two difference sealing length is available : 550mm and 750mm. RBS Rice Bag Sealers are easy to operate, no operator training required.

Optional: a. Change to Round Element for Cutter function (for seal and trim excess material- e.g. tubing film, in order to make customized bags)

### TECHNICAL DATA

MODEL	RBS 22	RBS 30
Voltage	1 Phase 240V	
Impulse Power	1500W	2000W
Sealing Length	550mmL	750mmL
Sealing Width	3.2mm	
No of Sealing Line	1 OR 2	
Sealing Jaw	Single Jaw	
Heat Time	0 - 2 sec.	
Cooling Time	0 - 4 sec.	
Working Table Height	(Adjustable)	
Machine Structure	Wooden Table Top with metal frame	
Machine Dimension	660mmL	850mmL
	450mmW	450mmW
	965mmH	965mmH
Machine Weight	35Kg	40Kg

\*\* Customized specification available upon request.
