HC Series Vacuum Packaging Machine

Vacuum packing reduces atmospheric oxygen, limiting the growth of aerobic bacteria or fungi, and preventing the evaporation of volatile components. Products with vacuum packing can be prevented from oxidation, going mold, insects or getting damp, thus can be kept fresh for longer time.

Vacuum packaging machine is commonly used in food product and industrial to maintain fresh food's freshness or prolong product's shelf-life which suitable for solid, Powdery and liquid products such as fresh meat, seafood, pickled vegetables, agricultural products, tea leaves, herbs, powder, spices, bean paste and prepared foods...etc. For Industry such as electronic or medical use vacuum packing for Electronic parts, hardware products, medical instruments, medicine to prevent oxidization. In clothing, bedding and plastic industry vacuum packing greatly reduces the bulk items for more storage space.

HC 8KG - Medium Single Chamber (Extra Depth)

HC8KG Single Chamber Vacuum Packaging Machine equipped with Germany-BUSCH vacuum pump. HC8KG Single Chamber Vacuum Packaging Machine design with extra depth 420mm vacuum chamber for packing large product such as whole chicken, big pack of rice.HC8KG with optional to equipped for gas flush system. HC8KG are typically used for low-to-medium-volume packaging. These vacuum sealers are ideally suited for new business owner for restaurant, food processors and industrial manufacturers.

HC8KG Single Chamber Vacuum Packaging Machine is easy to operate with setting program system, machine will finish the whole programs of vacuum extraction, sealing and cooling automatically. Fully stainless steel construction, features maximum durability and convenient cleaning. Transparent upper lid provides clear visibility for packaging operations.

HC Series Vacuum Packaging Machine are long lasting machineries built with selected high quality electronic components and therefore will require lesser maintenance.

TECHNICAL DATA

MODEL	HC 8KG
Voltage	1 Phase 220V
Vacuum Pump	1 HP 20m ³ /hr (Busch)
Packing Capacity	0-2 times/min
Chamber Dimension	520mmL x 470mmW x 420mmH
Sealing Length	450mm
Sealing Width	10
No. of Sealing Bar	2
Control Panel	Timer
Chamber Structure	Cast Iron
Machine Structure	Stainless Steel
Machine Dimension	680mmL x 510mmW x 910mmH
Machine Weight	125Kg
